### AGNES'S NIGHTMARE

Agnes was discharged from a hospital after an alcohol-induced coma.

And after a week, her friends invited her to a party.

While passing a boutique, she saw a luxurious dress with a tag: 50% OFF.

She had lost a lot of weight after the coma,  
and the dress fit her very well — so she bought it.

When she got home, she started preparing for the party.

She put on the dress, snorted a few lines before leaving, and the mirror smiled at her :)

When she arrived, friends welcomed her — and as she started dancing, she saw a girl in the same dress...

The same dress was worn by her ex-girlfriend!

Agnes hid her face in her palms...and then all the guests at the party started laughing.

From horror and shame, the ground under her legs gave way — and then she woke up again.

In reality — in a hospital bed, after an alcohol-induced coma.
